

DR. KATHLEEN BEHR

BEHR LASER AND SKIN CARE CENTER
FRESNO, CALIFORNIA

ON

THE HIGHEST STANDARD OF CARE

With a specialization in cosmetic dermatology and dermatologic surgery, including Mohs surgery, Dr. Kathleen Behr's priority is providing patients with the highest standard of skin care. From a caring staff to her state-of-the-art technology, including multiple lasers, she ensures her patients have access to the latest treatment options. This commitment to excellence has helped her garner recognition as a top doctor, including receiving Allergan's prestigious "Top 50" status. "I listen to my patients and suggest a plan to help rejuvenate them while keeping a very natural look. I want them to look their absolute best without looking like they've ever had anything done," says Dr. Behr.

Always go above and beyond to provide outstanding patient care.

WHO I AM

1.

WHAT IS THE MOST OUTRAGEOUS MEDICAL MYTH YOU'VE HEARD?

That sunscreen is not necessary when it's cloudy

2.

WHAT NONSURGICAL TRENDS ARE YOU SEEING AT YOUR PRACTICE?

Lasers for tightening, pigment, pore redness and texture; fillers for lifting and contouring of the face; and Kybella to eliminate fullness under the chin and give a sharper jawline

3.

HOW DOES YOUR STAFF ENHANCE YOUR PRACTICE?

My staff is warm, friendly and knowledgeable. This helps my patients coming in for cosmetic procedures to relax and feel comfortable while in the office

4.

WHAT ARE YOUR BEST PATIENT REACTIONS?

"I wish I had done this sooner!" and "I am thrilled with the results!"

5.

HOW HAS YOUR PROFESSION EVOLVED?

There are many more noninvasive anti-aging treatments available: we can now treat whole face restoration rather than just chase lines

6.

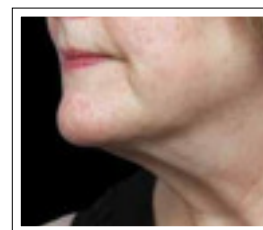

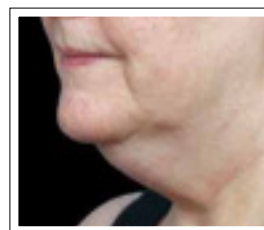

WHY IS A LONG-TERM TREATMENT PLAN IMPORTANT?

I provide all of my patients with a yearly treatment plan at their first appointment in my office. I find this helps educate and guide them in what they most want to improve as it may become overwhelming to navigate through the many available options. Then we work one step at a time on which treatments to consider going forward

7.

WHAT IS YOUR BIGGEST PASSION?

Improving my patients' natural beauty to make them happy

COMBINATION FAT REDUCTION

To decrease this 59-year-old patient's double chin, Dr. Behr performed a combination treatment using Kybella in the jowls and CoolSculpting under the chin.

MY MOTTO

Always go above and beyond to provide outstanding patient care

MY DREAM INNOVATION

A magic pill that reverses signs of aging and removes extra pounds

THREE WORDS THAT BEST DESCRIBE ME

Compassionate, artistic, determined
